

Pope John Paul II High School

International Student Program

2020-2021 Tuition and Fees

Application Fee: \$100.00 (non-refundable)

Registration Fee: \$600.00 (refundable if not granted a visa)

- New students – due upon acceptance to JPII
 - I-20 will be issued after receipt of all Step 2 documentation and registration fee
- Returning students – due May 15th
 - This fee holds your spot and helps facilitate the yearly I-20 paperwork

Yearly Tuition: \$16,800

- Payable in one payment due August 20th or in two payments of \$8400 due August 20th and January 20th.
 - Tuition covers the cost of your student's education, books and activity fees

Technology/Computer:*

- Option 1: \$2000
 - This option purchases a laptop computer with an active digitizer, accidental damage warranty, Microsoft Office Professional version software, school specific software programs and the school technology fee. At the end of the year, the computer belongs to you. If you return for another year you will only be charged for the yearly technology fee of \$100 for maintenance.
- Option 2: \$800
 - This option provides your student with the use of a *school owned (if one is available)* laptop computer with active digitizer and all appropriate software. You agree to take appropriate care of the rental machine and return it in the same condition you received it or pay for damages up to the cost of replacement. If you return for another year you will be again given these same two options.

Host Family Fee: \$5000

- This fee is due August 20th or in two payments of \$2500 due August 20th and January 20th. If your student will be living with a relative within reasonable driving distance to JPII, this fee will be waived. Please request the appropriate paperwork to introduce JPII to your relative/representative.

Spending Money: \$ _____ *to be determined*

- It is required that your student have spending money to cover their personal care expenses and activities like money for a dance or movie etc. The amount is at your discretion but must cover at least the personal care items a student would need. Host families provide food and shelter and a great deal of family support and comfort, but not personal expenses.

*JPII is a state-of-the-art, 21st Century learning community where advanced technology is an everyday tool in the classroom. We do require specific capabilities for our student computers, not just any laptop. If you have technology questions, please contact Mrs. Allin at tallin@popejp2hseagles.org or (360) 438-7600.

We understand and agree to the above tuition and fees and have indicated our preferred technology option.
